PURPOSE

To define TECSEP policy, objectives, and commitment to quality

SCOPE

This policy is applicable to all activities and service provider by TECSEP

POLICY

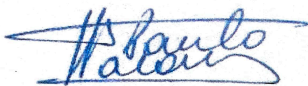

TECSEP success derives from a policy of providing superior services of unmatched value for clients across. It is TECSEP Quality Policy to:

Continue to build on the established reputation of providing quality services and to continue being spearhead in the development of processes and techniques for the oil and gas and related business.

Focus on uncompromising quality and consistency of purpose towards a continue and measurable quality improvement in all services provided. Ensure that design technical services, or product provided to clients are safe, technically superior, reliable and easy to operate and maintain. Our focus on quality operations management underpins our health, environmental and safety commitment, ensuring that our clients receive the best possible, most efficient, incident-free service.

Rewards individuals and resourcefulness and promote independent thought and action in the work efforts. Quality is the responsibility of every employee and must be developed and maintained to ensure a successful business endeavour. TECSEP is committed to a policy of continual training and educational programs for all employees. the objective is to build meaningful and widespread employee's involvement, teamwork and personal satisfaction that result in a cooperative effort that produces a quality services or products within the framework of the competitive business market.

TECSEP adheres to the stated quality requirement as well as the quality philosophy outlined by the international organization for standardization (ISO) 9001 Quality Standard.
